Challenges Faced by Startups

- **Funding Bottlenecks** – Slow disbursement, risk-averse allocation.
- **Weak Commercialization** – Research doesn't translate into scalable products.
- **AI Talent & Infrastructure Deficit** – Lack of sovereign compute and deep-tech ecosystem.

How COSMINNOX Solves It:

- **Government & VC-backed funding opportunities**
- **Structured AI & deep-tech incubation**
- **Industry tie-ups**
- **Access to sovereign compute clusters**

Programs & Services

- **Startup Incubation & Acceleration** – Intensive programs to scale startups.
- **AI & Deep-Tech Research Lab** – Advanced R&D infrastructure for cutting-edge projects.
- **Investor & Corporate Connect** – Pitch competitions, funding support, and partnerships.
- **Regulatory & Policy Guidance** – Navigate government schemes and compliance.

Who Can Apply?

- **Early-stage startups** working on AI, deep-tech, SaaS, and industrial innovation.
- **Entrepreneurs, researchers, and innovators** looking for structured mentorship and incubation.
- **Academia-led startups** aiming for commercialization and industry tie-ups.
- **Growth-stage startups** seeking funding, networking, and scaling support.

How to Apply?

- **Submit Application** – Apply online at [website link] with your startup details.
- **Screening & Shortlisting** – Our experts review applications based on innovation, scalability, and impact.
- **Pitch & Selection** – Shortlisted startups pitch to our panel of investors, industry leaders, and mentors.
- **Onboarding & Incubation** – Selected startups join the COSMINNOX ecosystem and receive structured support.
